GRAMEGNA®
THE ITALIAN PACKAGING SINCE 1960

EAGLE30
Tabletop manual heat shrink sealing bar 380X250mm

Main Features

EAGLE30 has always been the smallest model in the range of packaging machines that Gramegna offers on the market.
Designed for small/medium-sized production companies, this shrink wrap machine provides versatility and minimum footprint as its main strengths.
The absolute reliability and high yield, combined with low energy consumption and easy use, are the characteristics that make EAGLE 30 one-of-a-kind in its category.
