THE ITALIAN PACKAGING SINCE 1960

# TS 55A

Semi

Automatic packaging machine

L-Sealer

Sealing bar 540x390 mm

## Description

The **TS LINE** semi-automatic, angular machines offer maximum packaging flexibility, and a quality product at a competitive price.

**TS 55A** and **MODULAR 70**, which have recently been updated and revised, can be used to package products using any material, producing highly attractive results.

**TS LINE** uses an electronically controlled sealing system and the very latest safety devices.

The lines can be used in automatic or semi-automatic mode, and the operating programs can be customised in order to simplify the packaging process and maximise productivity.

The **INOX** version of **TS 55A** is perfect for food or pharmaceutical applications.

**TS 55A** and **MODULAR 70** can also be used with the Gramegna **TUNNEL LINE**.
